Oxford Circle Christian Community Development Association Annual Report

TRAUMA THERAPY & SOCIAL-EMOTIONAL LEARNING

In response to high rates of trauma among students in the Oxford Circle community, OCCDA's Family Resource Center (FRC) launched the Success Lab in September 2019 to provide individual and family therapy to kids at Carnell Elementary School that have experienced trauma.

Rebecca Hui, the Success Lab's therapist, has held recurring therapy sessions with 29 children and families affected by trauma the first year. Hui has already seen this program making a difference with a decrease in trauma-related symptoms. She is

especially proud of how the children she sees are applying the skills they have learned at the Success Lab.

In addition to therapy, FRC's staff Wanda Cobb is teaching the Second Step Social-Emotional Learning curriculum in the school's 2nd grade classrooms, to help kids be able to express their emotions and in the long-run improve behavior and reduce violence. So far 180 students have completed the curriculum. We are thankful for a two-year grant from the PA Commission on Crime & Delinquency to fund programs such as these in our local public school.
